Prestigious Award for Young Research's at [CANCER TARGETS 2020](#)- Discovering New Exploration in Cancer Targets

[Cancer Target](#) conference committee is glad to announce 2nd International Conference on Biomarkers and Cancer Targets during October 23-24, 2020 Cape Town, South Africa

Cancer Target 2020 developments are maintaining their momentum. [Biomarkers](#) Conference program delves into strategic discussions as pharmaceutical manufacturers have benefited from an aging population in developed economies and a growing middle class in emerging economies, which provided a larger customer base for operators in the Global Pharmaceuticals and Medicine Manufacturing industry. Many manufacturers also tapped into regional demand for pharmaceuticals that may differ from developed markets. Furthermore, the growing global middle class provides additional growth opportunities, given increased access to pharmaceutical products and higher per capita expenditure on medicines. To address global demand, many pharmaceutical manufacturers now include relevant populations from emerging markets into their clinical trials. Cancer prevention is an accomplishment drags towards lower chance of getting cancer. People were diagnosed with cancer in the United States. Not only the physical problems but also the emotional distress was caused by cancer, the expensive costs of care are also an obligation to patients, their families, and to the public. With the prevention cancer, the number of new cases of cancer can be reduced. Expectantly, this will moderate the load of cancer and cancer death number will decrease.

Cancer Target 2020 Young Scientist Awards:

Cancer Target 2020 Conference Committee is intended to honour prestigious award for talented Young researchers, scientists, Young Investigators, Post-Graduate students, Post-doctoral fellows, Trainees, Junior faculty in recognition of their outstanding contribution towards the conference theme. The Young Scientist Awards make every effort in providing a strong professional development opportunity for early career academicians by meeting experts to exchange and share

their experiences on all aspects of Cancer Target 2020

Young Research's Awards at Cancer Target 2020 for the Nomination: Young Researcher Forum - Outstanding Masters/Ph.D./Post Doctorate thesis work Presentation, only 25 presentations acceptable at the Cancer Target 2020 young research forum.

Submit your proposals: Cancer Target 2020

Last date for Initial application December 30, 2019-\$399

Last date for Initial application January 30, 2020-\$499

Last date for Initial application February 28, 2020-\$599

Benefits:

- Young Scientist Award recongination certificate and memento to the winners
- Our conferences provide best Platform for your research through oral presentations.
- Learn about career improvement with all the latest technologies by networking.
- Young Scientists will get appropriate and timely information by this Forum.
- Platform for collaboration among young researchers for better development.
- Provide an opportunity for research interaction and established senior investigators across the globe in the field
- Share the ideas with both eminent researchers and mentors.
- It's a great privilege for young researchers to learn about the research areas for expanding their research knowledge.

Eligibility:

- Young Investigators, Post-Graduate students, Post-doctoral fellows, Trainees, Junior faculty with a minimum of 5 years of research experience
- Presentation must be into scientific sessions of the conference.
- Each Young Researcher / Young Scientist can

submit only one paper (as first author or co-author).

- Age limit- Under 35yrs
- All submissions must be in English.

Cancer Target 2020 provides best platform to expand your network, where you can meet scientists, authorities and CROs from around the world. It's your time to grab the opportunity to join

Cancer Target 2020 for promoting your research article and to facilitate prestigious award in all categories. In this fame, we look forward for your contribution and astonishing dedication to make our Cancer Target 2020 more successful.
